PRESENTMENT OF THE GRAND JURY OF BEAUFORT COUNTY.

SOUTH CAROLINA, BEAUFORT COUNTY-IN THE SESSIONS, SPRING TERM, 1869. To the Honorable Zephaniah Platt, Presiding

The Grand Jury of this county respectfully present the following:

This jury having visited the public buildings, find the county jail in very bad repair, and totally unfit and insecure for the confinement of capital or other prisoners; and we recommend that immediate steps be taken for the proper repairing of the same; and in the meantime would most earnestly recommend that the sheriff be instructed to place such additional and sufficient guards as will insure the safe keeping of prisoners. The sanitary condition of the jail is perfect, and the food furnished is good. For further information you are respectfully referred to the subjoined report marked A.

Your attention is respectfully called to the necessity of immediate action in obtaining a suitable and permanent courthouse for this county, the lease of the building now occupied as such expiring in a few months. For information on that subject you are respectfully reforred to report marked G.

Your attention is also called to the necessity existing in this county for a farm school and house of correction, for juvenile delinquents and adult vagrants, committed for petty crimes, wherein they would be compelled to labor; the juveniles compelled a part of the time to attend school, thereby preventing them nom coming in contact with more hardened criminals in a common prison, and thus affording them the opportunity of reformation . It is believed that an institution of this kind would, in the future, tend to diminish crime and save the county much expense in prosecu-We respectfully present as public nuisances

the roads and bridges referred to in the accompanying documents marked B, C, D, believing that the welfare of the residents of this county demands the erection of good and substantial bridges at all points, over streams and xivers crossing the main highways. We call particular attention to the immediate necesaity of a bridge being built over the Saltketcher River, conjointly with Colleton County. For further particulars see paper marked E. A bridge is absolutely necessary between Port Boyal Island and the main land, and should be immediately erected near Port Royal Ferry. We would further represent to your Honor,

that the collection of all tax executions in the sheriff's office having been stopped, great injury is being sustained by the citizens of this sounty; and would recommend that the solicitor for the county be instructed to give the matter his immediate attention. For further information we beg to refer you to the subjoined document marked F. In conclusion, we feel it especially incumbent

on us to further represent that from the nonattendance of witnesses, the welfare and well being of this community is jeopardized and trials of accused parties prevented. In such cases, we recommend that sureties be summ arily declared torfeited. By this proceeding, we are of the opinion that the unnecessary delays, annoyances and expenses which have been incurred during the past and present terms of court will be obviated.

This jury respectfully thanks the court for the courtesies and facilities extended in the performance of their duties. All of which is JAMES M. CROFUT, Foreman.

NEWBERRY VINDICATED.

Acting Solicitor Cald well writes as follows to the Newberry Herald: "You will oblige me by publishing the subjoined letter. I wrote it in reply to one addressed by one Dr. Robert K. Scott (who is by courtesy styled Governor of South Carolina,) to the sheriff of Newberry County. Personally, I cared nothing for the matter; but I felt it my duty, as acting solicitor, to clear the County of Newberry from the Piolent and groundless accusations made against it. Dr. Scott is quite in a rage, I learn; and one Mr. Selby (who is said to edit a little sheet in Columbia) is also unwilling to see the good people of Newberry exonerated. I therefore call upon you to make public a statement of which those two distinguished gentlemen

Newsers Courtnouse, March 29, 1869.

To his Excellency Governor R. K. Scott:

Six.—The sheriff of Newberry County showed me during the recent session of the court, at shis place, a letter which you had addressed to him, through your private secretary, in regard to certain acts of violence, alleged to have been committed on the premises of G. G. De-Walt, and in the neighborhood of Pomaria, in this county. I feel it my duty, as asting soliciter, to reply to the charges and threats contained in that letter.

Your Excellency, as it appears to me, has improperly charged the sheriff. Even under the new regime, I conceive that it is not the duty of the sheriff to bring before the grand jury, all disturbances that may occur in his county; because he is not the efflore to whom any one makes complaint; and therefore he cannot be expected to be informed as to any oriminal complaint, except by hearsay. The letter which I have previously spoken of about have been addressed to me, as the officer which I have previously spoken of about have been addressed to me, as the officer which I have previously spoken of about have been addressed to me, as the officer which I have previously spoken of about have been addressed to me, as the officer which is the informality. So soon as I had notice of your letter; I proceeded to investigate the complaints made. I called the attention of the grand jury to the matter; I sent G. G. DeWalt before them, and when he failed to give them such information as would warrant them in making a presentment against any one, I sent out the sheriff to arrest and bring before the court any and all persons who could or would give information. I brought the matter before the court as second time; when these means failed, I persuaded his Honor Judge Butland to charge the grand jury again upon the subject; I sent again for witnesses; I went to the grand jury room and instructed them as to their duty. It all availed nothing. Rio particle of intelligence could be elicited, and there was, consequently, no indictm

made out.

The conviction is, therefore, f reed upon me, shat only malicious persons have made these representations to you—persons whose sole delight consists in fomenting discord between the two races and the two political parties in this State. The courts have always been open here for all persons of whatever race or social position. We are a law-abiding people. We desire that every man shall be secured in his libesty and property. We want peace, and we insist upon justice. Give us that! Yours, respectfully.

Acting Solicitor.
